

N.Y. BEGINS iactor ASSISTANCE

THIS SUMMER THE NEW YORK DIVISION LAUNCHED ITS FIRST SERIES OF iACTOR ORIENTATIONS AND HANDS-ON TRAINING SESSIONS.

Members were invited to attend one of three iActor orientations where Meta Williams from the Hollywood Web Help team came in to show members how to use iActor. Members who attended were invited to bring their own laptops and follow along with the presentation. Many members who did so were able to complete their iActor profiles by the time the orientation was over.

At the conclusion of the event, any member who still wished to attend a hands-on training session signed up for an appointment for the following week. For three days, Guild staff and a corps of volunteers helped members create their iActor profile and showed them how they can begin using iActor by emailing their completed resumes out to casting directors.

New York MOVE committee members and volunteers ANITA PARIS, DAVID BODEN-SCHATZ and SUZANNE DU CHARME check members in at an iActor orientation.

Volunteer JULIO NEIRA helps members upload their information into iActor during a hands-on training session.
