Access - Inclusion - Accuracy

Invite you to join us for

The Hollywood Disabilities Forum

An executive industry forum on the accuracy, inclusion and access of people with disabilities in entertainment. Fifty-six million Americans – 20% of the US population – have a disability. Despite being the largest minority group in the country, people with disabilities are virtually invisible in entertainment media. The Hollywood Disabilities Forum will focus on best practices of industry pioneers who incorporate stories featuring characters with disabilities and who hire performers with disabilities for TV, film, radio and stage productions. Join us for this unique and groundbreaking event!
